الأمير وليام - بريطانيا Prince William of Britain

Prince William is the grandson of Queen Elizabeth II of Britain. He was born in London, England, on June 21, 1982. He is the elder son of Charles and the late Lady Diana, Prince and Princess of Wales. He has one younger brother named Harry.

William was educated at private schools in England. He attended one of the oldest high schools in England, Eton College. At Eton, he was captain of the football team and took up water polo. After graduation, William took a gap year, during which he trained with the British Army, traveled in Africa, and taught children in a small town in Chile.

He returned in 2001 and enrolled at one of the oldest universities in Scotland. He began studies in art history, but later changed his main subject to geography. William went on to earn a Master's degree—the best degree of any heir to the throne of Britain. He then decided to follow a military career and trained at the Royal Military Academy in 2006. He served in the Armed Forces with his brother, and two years later he earned his pilot wings. In 2009, he transferred to the Royal Air Force for helicopter training. He later served as a pilot in the Search and Rescue Force.

Prince William now makes public appearances and performs his many royal duties—among which he is President of England's Football Association. And, like his mother, the late Lady Diana, he continues to help others by actively supporting many humanitarian causes.

GUIDE TO NIAGARA FALLS

Things to Do

There is a lot for the whole family to do in Niagara Falls. A helicopter ride provides a wonderful view of both the American falls and the Canadian falls. During the ride, you can take great pictures to show your friends back home. A favorite with all the tourists is the Journey Behind the Falls. You'll put on a raincoat, take an elevator, and get out at the bottom of the falls. From there, you'll see, hear, and feel the excitement as the water crashes down from the height of a twenty-story building. It's an unforgettable experience!

Places to Stay

The Broadview Hotel

Many visitors want to stay at the Broadview. The rooms are small, but the views of the falls are wonderful. The hotel restaurant is good, but very fancy. You'll have to wear your best clothes. The Broadview is expensive, but its guests receive very special treatment. And for your information, the hotel doesn't have a pool, but it has excellent workout facilities for people who like to exercise.

Martin's Motel

Martin's Motel is a really friendly place. When you check in, Martin shows you to your room. The rooms aren't fancy, but they're large and they have cable TV. There is an outdoor swimming pool and a game room especially for children. It's just a 15-minute walk to the falls. And if you're hungry, you can eat at the diner next door. The food is good and cheap, and the diner is open 24 hours a day. You won't have to dress up to eat there. Families that stay at Martin's always have a good time.

But that doesn't bother me. I usually eat only (9) **a little** meat anyway. There are only (10) **a few** things on the diet that I never eat—actually just two things—lamb and tomatoes. Food Is Not Just for Food

Do you like bananas on cereal, roasted garlic, or cucumbers in salad? Believe it or not, each of these foods is also a medicine. Thousands of years ago people started using foods to cure everyday health problems. Today, people still use many of these foods as medicines. Each culture has its own favorite food remedies. Here is a short list of illnesses and some of the foods people use to cure them.

Headaches

- Peel several very ripe bananas. Wrap the peels in two different pieces of cloth. Place one over the back of your neck and the other on your forehead.
- Peel a large lemon. Rub the skin of the lemons on your forehead. Then put the pieces in a cloth and place it on your forehead. The pain will stop.

Tired, Red Eyes

- Peel and slice up a very ripe apple. Let the fruit get brown. Place the pieces on your closed eyes. Leave them on for at least half an hour.
- Place thin slices of cucumber over your closed eyes and lie quietly for a few minutes.

A Cold

- Put two cloves of crushed garlic in a bowl of boiling water. Add one tablespoon of vinegar. Cover your head and the bowl with a towel. Breathe in the warm vapors.
- Soak a piece of brown paper in vinegar. Shake pepper on one side. Place the peppered side of the paper on your chest. Leave it there all night, if possible.

Have you ever heard of any of these remedies? Most people in the medical profession say that there is little research to prove any positive results from these old food remedies.

H READING

Since the 1700s, people have tried many different ways of traveling over land. They wanted to move more quickly and more comfortably than they could on horseback. Inventors have produced several different kinds of car engines since 1760. First, they tried steam engines. But they were noisy, and the driver had to stop frequently to get more water. Then they tried gasoline engines. The inventor of the modern gasoline-powered automobiles was a German named Karl Benz. He made his first car in 1886. His company later became Mercedes Benz, and it is still making cars today.

Automobile companies have added many improvements to cars over the years. Have you been in a car in rainy or snowy weather? Was it difficult to see the other cars on the road? A hundred years ago, it was almost impossible to drive in bad weather. People had to get out of their cars and wipe the windshields of their cars every few minutes. However, today, we have

windshield wipers. M. Anderson invented the windshield wiper in 1903, and by 1913 almost all American cars had them. And today you can't buy a car without them.

Another invention that has become very popular is the bucket seat. Steve McQueen, a famous American actor, invented this type of seat. McQueen worked on cars and was a race car driver. He needed a seat that was comfortable when his car was going very fast. Have you ever sat in a bucket seat? It's lower than a regular seat, and most people say it's more comfortable. Manufacturers have put bucket seats in cars for over forty years now.

Auto manufacturers have improved cars. They've added things that make driving easier and more comfortable for drivers. Windshield wipers and bucket seats were only the beginning. Now many cars have GPS devices and even computers to help drivers park. Cars have come a long way in one hundred years!

Small Town America

Do you know what the expression "small town America" means? Sometimes people use it to describe living in a small town in the U.S.A. There's a big difference between the quality of life in a large city and in a small town. That's true in any country.

Some people prefer to live in the city because there are a lot of people to meet, a lot of places to eat, and a lot of things to do. The pace of life is faster in a big city than it is in a small town. So for some people, the expression "small town" or "small town America" is another way to say that something is slow or even boring.

Officially a town has to have less than 10,000 residents to be considered a small town. In other words, a small town is even smaller than a small city. Many young people who grow up in small towns leave for life in the big city. But there are those who regret their move to the big city and want to move back to their small town life. Why? Many miss the community—the friendly neighbors, the close friends, and the looking out for the other person that are often characteristic of a vibrant small town.

The top ten best small towns in the U.S.A. are voted on annually. These are the towns that people miss when they move away. These are the towns that have citizens who are excited about living in their small town. Recently, Hammondsport, New York was voted the best small town in America.

Young people in small town America often do very different things for fun than their big city counterparts. Some of the exciting things young people in small town America do include riding ATVs (all terrain vehicles), riding horses, and even riding snowmobiles when it snows!

Here and There

I live in a quiet village. The weather is warm and sunny most of the year.

The village is small, and the people are friendly. I know all of my neighbors, and most of my relatives live in the village. My friend, Hisham, lives in a large city. He loves it. But the city is busier and noisier than my village. It's also more expensive to live in Jamal's apartment in the city. And the worst part is that the weather is always cloudier and colder than in my village by the sea.

My Last Two Vacations

Last summer I went to Abha with my family. Abha is a wonder of nature and one of the crown jewels of the Asir province. Its mild climate makes it a popular tourist destination I visited my relatives there. Then I went with my family to the Green Mountain and Abha Dam. It was amazing. That was a more exciting vacation.

The summer before, I went to Jeddah on vacation. Jeddah is a busy city. The weather was very hot. I didn't see much of it. We went to the beach every day, and I surfed and swam.
